## U22 XT

The **U22 XT** offers ultimate flexibility as fully bus powered USB device with pristine professional 24-bit audio quality. It features 2 analog input and 2 analog output channels with RCA connection, a microphone preamplifier with XLR input and support for +48V phantom power, a Hi-Z instrument input for guitars, a high quality headphone output and TRS line outputs. Master and headphone volume as well as monitoring are controlled on the front panel. On the software side, **U22 XT** provides low latency drivers with support for WDM, ASIO 2.0 and CoreAudio based on our **EWDM** and **DirectWIRE** technology. If you're looking for a really powerful USB audio solution for your PC or Mac to start working out of the box, especially with the powerful bundled software **Bitwig 8-Track**, **Deckadance LE** and others, then **U22 XT** is for you!

U86 XT

U86 XT is a new versatile USB 2.0 Hi-Speed audio interface that provides better performance for better results. With a total of 8 input channels and 6 output channels, the 24-bit / 96kHz solution not only provides balanced 1/4" TRS line connectors, it also includes 2 integrated microphone preamps with XLR inputs on the front of the unit with switchable +48V phantom power, 2 Hi-Z instrument inputs for electric guitars as well as coaxial digital S/PDIF input and outputs. There is also a professional headphone amplifier, an integrated monitoring mixer and a MIDI interface. **U86 XT** provides fast high performance low latency **EWDM**-drivers with support for the latest WDM, ASIO 2.0 and CoreAudio technology for both Mac and PC, supporting **DirectWIRE**. A powerful software bundle with **Bitwig 8-Track**, **Deckadance LE** by Stanton and the **Audified inTone 2 ESI Edition** provides everything you need to start working right out of the box.

MAYA44 eX

Our **MAYA44 eX** is probably the most affordable, modern and flexible PCIe audio solution on the market today. The latest edition of our high quality 24-bit / 96 kHz 4-in / 4-out audio interface provides a number of features optimized for home recording on a professional quality level, featuring an all new **EWDM** driver with virtual channels and full **DirectWIRE** support. The integrated microphone preamps with +48V phantom power and Hi-Z inputs as well as independent headphone outputs and optical I/O get you connected. Mix and broadcast yourself with this powerful solution!

U168 XT

U168 XT is a USB 2.0 Hi-Speed audio interface that brings brings USB audio technology to a new level. With no less than 16 input channels and 8 output channels, the 24-bit / 96kHz solution not only provides balanced 1/4" TRS line connectors, it also includes 4 integrated mic preamps with +48V phantom power, 2 Hi-Z instrument inputs as well as coaxial digital S/PDIF I/O and a MIDI interface. Two independent headphone outputs are integrated as well. **U168 XT** provides professional low latency **EWDM** drivers with support for the latest WDM, ASIO 2.0 and CoreAudio technology and supports **DirectWIRE**. With the included **Audified inTone 2 ESI Edition**, **Bitwig 8-Track** and **Deckadance LE** you can jam, mix and record right away!
